Photoanalysis

Step 1: Observation
Study the image. Look at the whole image and at the individual parts. List your observations below.

<table>
<thead>
<tr>
<th>People</th>
<th>Objects</th>
<th>Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Step 2: Making Inferences
Based on what you have observed, make three inferences. List three things you believe are true based on the information from this image.

1. ____________________________

2. ____________________________

3. ____________________________

Step 3: Asking Questions
What questions does this photograph raise in your mind?

1. ____________________________

2. ____________________________

3. ____________________________
